

[PIAS] PRODUCTION LTD

OVERVIEW

Based in London, [PIAS] Production offer a tailored approach to a wide range of manufacturing services for music and media.

A close relationship with our labels ensures a high level of service and competitiveness across standard releases and more complex project management

The services offered by [PIAS] Production are outlined in more detail below

[PIAS] PRODUCTION

■ SERVICE

[PIAS] Production will provide a bespoke manufacturing service on CD, DVD, Vinyl, associated packaging and point of sale materials.

A production planner will be assigned to each project and will manage the day to day communication with manufacturers on behalf of the label.

■ IN-HOUSE DESIGN

[Pias] Production is all about creativity and great designs. Using the latest software and technology, we have many years experience and continually produce amazing artwork and designs for print, packaging and media.

■ REPROGRAPHICS

Combining both old and new technologies, [Pias] Production can provide a vast array of creativity to help clients convey any type of message to any audience. The design and repro environment includes:

- Consultation
- Preparation and modification of artwork for print
- Pre-press to production

■ PRINT AND POINT OF SALE

For many companies print and point of sale materials can be as important as product packaging and design. [Pias] Production has the experience and expertise to get your print and point of sale material produced and distributed quickly and cost effectively using a variety of printing techniques from digital, laser, web, offset – lithographic. We have access to an extensive range of printers ensuring great value, catering for all print production needs from bespoke to the standard.

■ MASTERING

[PIAS] Production offers access to award winning engineers for cutting vinyl and for CD and DVD mastering, using some of London's top mastering suites. Labels can also take advantage of online mastering services.

■ AUTHORIZING

Access to state of the art facilities allowing labels to produce complex, but simple to use DVDs for film, music promo or electronic press kits.

■ DISC MANUFACTURE

Replication and duplication services are offered on

- CD Audio
- CD ROM
- DVD5, DVD9, DVD10
- Dual Disc
- Blu Ray

More specialised discs such as vinyl effect, coloured discs and scented discs are also available.

■ VINYL MANUFACTURE

A full range of vinyl pressing, packaging and cutting options is available.

- 7"
- 10"
- 12"
- Heavy Vinyl
- Coloured Vinyl
- Picture discs

■ PACKAGING

In addition to the standard packaging that [PIAS] Production supply, also on offer is a range of special packaging options such as rigid boxes, cartons, tins and plastic trays. Together with special finishes such as lamination. Spot UV, foil blocking and embossing, these make high quality products with maximum visual impact

■ PROJECT MANAGEMENT

Briefing [PIAS] Production on your project or release from the very beginning will enable us to advise you on the most cost effective way to reach your goal.

We will recommend papers and boards, ways to package the contents - Disc, USB, vinyl, merchandise etc. fulfilment and costs. We can also give you options on environmentally friendly products and carbon offsetting.

Whether it is a multi-format project or a collectors item, [PIAS]Production will partner you through the process to ensure a successful launch.
